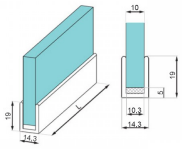
14.3mm U Profile For Loft Style Showers - 10mm Thick Glass (Model: G7013BL-LOFT)



- Suitable for 10mm thick glass.
- Different to other U Profiles due to its thick wall which will cover the cut edge of the banded strip.
- A perfect colour match for G.DK.LOFT.005 the black banding strip
- The most popular U channel for bespoke shower enclosures.
- The depth of the channel is ideal for disguising any discrepancy in the plumbness of the wall, allowing for the glass to be cut straight.
- The glass is generally fixed in the profile using N.SOU.FIXALL.CL or N.SOU.ANTIMOULD.CL which are sealants and adhesives suitable for use in wet environments.
