

Indoor Convex Mirror 600mm Acrylic (Model: O0007)

- Indoor convex mirror is supplied with an orange mirror back and adjust to any angle to allow an optimal line of sight.
- The Indoor convex mirror can be positioned wherever goods are concealed from view by shelving or partitions, and on the end of shelving units and near check outs.
- Convex mirrors are ideal for sheltered outdoor and industrial situations such as warehouses, hospitals or any other situation where blind spots are present- like parking lot, garage, school, storage and factory etc.
- The convex mirror face is made of 2mm acrylic. Due to the galvanized steel installation parts, the products can be adjust 360 degrees freely. The edge banding, made of aluminum alloy, promises good sealing and steady mirror face.
- Supplied with a Zinc-plated bracket for mounting on to flat surfaces. A mounting bracket for tube can be bought separately.
