

Outdoor Convex Mirror 600mm Acrylic (Model: O0010)

- Outdoor Convex Safety Mirrors will greatly improve road safety by enhancing your range of view around tight corners and bends, as well as hard to see or concealed entry and exit points on driveways, parking lots and intersections.
- The impact resistant acrylic convex mirrors make turning safely onto the road from driveways and intersections easier and can lower the risk of collisions.
- Outdoor convex mirrors are also a low cost way to improve security surveillance around factories, warehouses, security checkpoints and private driveways.
- Outdoor Convex Mirrors are weather proof and can be used for general outdoor areas where harsh environmental conditions are not a problem.
- Supplied with a Zinc-plated bracket for mounting on to flat surfaces. A mounting bracket for tube can be bought separately.
