

180deg 1/2 Dome Acrylic Mirror 800mm (Model: O0019)

The Indoor Ceiling Dome Mirror is probably the most effective method of wide area surveillance, due to its large 180° area of reflection, making it ideal for large retail areas, warehouses and distribution centers, when strategically placed.

The Dome comes complete with standard fixings and our unique suspension kit for optimal height positioning.

Characteristics:

- The full dome mirrors are made of high quality acrylic, The mirror visibility is excellent, acrylic is strong and it is not easy to scratch on the surface. The edge is rubber material.
