

Clear Double Adhesive Tape 15x1mm x25 Mtr (Model: H0310)

This is a highly transparent, polyacrylate-based adhesive tape with adhesive on both sides. It has excellent adhesiveness immediately after application, quickly offering a high degree of security.

XtraCryl excellent resistance to ageing, weathering, temperature and solvents and is ideal for bonding rough materials as well as for permanently bonding glass, metal, mirrors per DIN EN 1036 and many plastics.

Stresses in the adhesive bond are reduced and the strength of the bond increases greatly over time.

We especially recommend XtraCryl for mounting laminated glass mirrors and when bonding cast resin panes.
