

Laminating Tape 50mm x 66 metres (Model: W.EVA.TAPE.50)

- Our thermal laminating tape is designed for the use during the manufacturing of laminated glass. It is recommended to apply this tape around the perimeter of the glass construction prior to lamination to reduce the risk of leakage.

- 66 linear metres per roll

- High Strength Self Adhesive Tape

- Suitable for temperatures of up to 200 degrees

Attributes:

Product Code: W.EVA.TAPE.50

Unit Of Sale: Roll
