

Veribor Plastic Double Pad Lifter - 50kg Capacity (Model: B0014)

The Veribor® 2-cup suction lifter has a large, non-slip gripping area and lies perfectly in your hand. The levers have an ergonomic and user-friendly design. Their wide surface enables optimum force absorption. They are dimensionally stable but still soft enough to adapt to the surface during vacuum generation. The 2-cup suction lifter is suited for loads of up to 50 kg (two-fold safety factor) and can be used for all materials and objects with gastight surfaces.

- Key features:
 - Load max up to 50kg.
 - Sturdy plastic.
 - Suction pad, Ø 120 mm
 - Non Slip Handle.
 - Rubber support surface
