

600kg Glass/Window/Slab Transport Dolly (Model: B0096)

The powder-coated 600kg trolley can be used for materials of any kind up to a load capacity of 600 kg. It can easily and safely transport sheets up to 6 x 3.5 m with a thickness up to 140 mm. Its pneumatic tyres are especially suited for outdoor work. Also, each wheel of the trolley can be chosen separately. It can be taken apart in just a few steps without tools, fitting into any transporter or utility wagon.
